

Maximum Units

Reimbursement Policy ID: RPC.0023.2400

Recent review date: 12/2024

Next review date: 12/2025

Select Health of South Carolina reimbursement policies and their resulting edits are based on guidelines from established industry sources, such as the Centers for Medicare & Medicaid Services (CMS), the American Medical Association (AMA), state and federal regulatory agencies, and medical specialty professional societies. Reimbursement policies are intended as a general reference and do not constitute a contract or other guarantee of payment. Select Health of South Carolina may use reasonable discretion in interpreting and applying its policies to services provided in a particular case and may modify its policies at any time.

In making claim payment determinations, the health plan also uses coding terminology and methodologies based on accepted industry standards, including Current Procedural Terminology (CPT); the Healthcare Common Procedure Coding System (HCPCS); and the International Classification of Diseases, 10th Revision, Clinical Modification (ICD-10-CM), and other relevant sources. Other factors that may affect payment include medical record documentation, legislative or regulatory mandates, a provider's contract, a member's eligibility in receiving covered services, submission of clean claims, and other health plan policies, and other relevant factors. These factors may supplement, modify, or in some cases supersede reimbursement policies.

This reimbursement policy applies to all health care services billed on a CMS-1500 form or its electronic equivalent, or when billed on a UB-04 form or its electronic equivalent.

Policy Overview

This policy describes limitations on payment based on units of service to providers contracted with Select Health of South Carolina.

Most services and supplies have a maximum unit of service that is allowed within a designated time (e.g., per day), due to the type of service or supply when furnished by the same provider. A physician or other qualified health care professional from the same group practice (group payee ID) in the same specialty with the same Tax Identification Number (TIN) is considered the same provider.

Select Health of South Carolina follows SC Department of Health and Human Services (SCDHHS), the American Medical Association (AMA) Current Procedural Terminology (CPT), Centers for Medicare & Medicaid (CMS) Healthcare Current Procedure Coding System (HCPCS), CMS Medicaid National Correct Coding Initiative (NCCI), and other industry guidelines based on medical practice standards in regard to a maximum unit of service. Only medically necessary services and/or supplies are reimbursed.

Exceptions

N/A

Reimbursement Guidelines

Select Health of South Carolina uses edits to prevent payment for services and supplies exceeding their maximum units of service as determined by the SCDHHS Fee Schedule that are normally allowed within the designated period of time:

- Maximum unit edits include CMS Medicare and Medicaid NCCI Medically Unlikely Edits (MUEs). When the SCDHHS Fee Schedule or SCDHHS material indicate a different maximum unit than CMS, SCDHHS material prevail. If the units on a single claim line exceed the MUE value for the procedure code on that claim line, the excess units will be denied. See Reimbursement Policy RPC.0024.2400 Medically Unlikely Edit (MUE)
- Maximum unit edits are not limited to MUEs. If the units on a claim line or a claim exceed the maximum units allowable for a procedure code within their designated time, the excess units will be denied unless a different maximum unit is outlined in SCDHHS material.
- CPT/HCPCS code descriptions and other coding manual instructions often indicate the maximum units for procedure codes. See Reimbursement Policy RPC.0007.2400 for Add-On Codes.
- Appropriate modifier(s) indicate the circumstance(s) for which the same procedure code on multiple claim lines for the same date of service will be considered for payment. See Reimbursement Policy RPC.0013.2400 regarding duplicate services.

Providers must submit clean claims for accurate reimbursement of services and/or supplies.

See Reimbursement Policy RPC.0025.2400 on Frequency.

Refer to CPT/HCPS manuals for complete descriptions of procedure codes and their modifiers, Medicaid NCCI coding policy manuals, and SC Department of Health and Human Services (SCDHHS) billing resources for fee schedules and billing guidelines.

Definitions

Same Individual Physician or Other Qualified Health Care Professional

A physician or other health care professional from the same group practice with the exact same specialty and subspecialty reporting under the same Federal Tax Identification number (TIN).
